Alpha

ALPHA

Alpha is an amazing movie from 2018 by Albert Hughes. It tells the wonderful story of a young man named Keda. He became friends with a wolf and called it "Alpha." Together, they face a terrible winter and many dangers in the wild. They must work together to survive and find their way back home.

✂ comment:

Katie

People might think this is just another "boy and his dog" movie, but this time it's about a wolf. However, it's much more than that! They couldn't survive the cold without each other and became stronger together. As the saying goes, __35. __!

Nick

I didn't expect much from the movie, but it surprised me! The story shows how a boy becomes a man. And it reminds me of another movie "*Eight Below*"— both tell stories of close friendships between humans and animals in difficult times.

Luna

The movie was so touching. Keda followed his heart and didn't kill the wolf, even though it tried to eat him. He even shared the little water with the poor animal and tried to get it back to health. In the end, this turned out to be the best decision. His kindness saved both of their lives.

✧ Below is part of a new shopping center's market report.

Our busiest time is on weekend afternoons, between 2:30 p.m. and 4:30 p.m. About half of the week's business happens during this time. So, it might be better to move the "Weekend Special Sale" from Saturday evening to Saturday afternoon because more people might come during the sale. We should also think about having more free buses and parking areas on weekends.

Weekday evenings are the second busiest time, and the business is much better than last season. This might be because there were typhoons in the past two weeks, and people wanted to buy food early. Another interesting fact is that most sales happen in the last hour before closing. Most shoppers at that time live nearby or are busy working parents. They come for last-minute shopping before the store closes. These people make up almost 80% of weekday evening business. So, we might get more business if we stay open for 30 more minutes on weekdays, until 10:30 p.m.

Another thing is that business on weekend mornings is not as good as in the evenings. If we open before 9 a.m. on weekends and serve breakfast, we might get more shoppers.
